Dear Mr Tait,

Many thanks for your letter dated 9th September.

The committee upheld, in part, my complaint about the lack of investigation into the EU origins of the Regionalisation process. Please find enclosed a copy of Lindsay Jenkins's recent book 'Disappearing Britain – The EU and the death of Local Government'. It is an excellent factual account with plenty of quotes from the original EU documents and just skimming the contents page should at least give you an idea of the enormity of the hole in the BBC's coverage of this issue. Please, please take the time to read it. A quick look should immediately confirm that it isn't just the rantings of a bunch of 'swivel eyed loons' or 'BNP types'. Please look at it and just consider whether the BBC would be better advised to do the research into the facts behind the European Union and its control over the UK rather than just accept the spin produced by its advocates.

Yours sincerely

Michael Wigley
